SUMMARY

A highly skilled and details-oriented MERN Stack Developer with over 1+ years of experience in building and maintaining scalable web applications using MongoDB, Express.js, React, and Node.js. Proficient in Full-Stack web development, with a strong understanding of front-end and back-end technologies. Adept at working in scalable, and responsive web applications. Experience in authentication API with RESTful APIs. Passionate about coding and constantly learning new technologies to stay up-to-date with industry trends.

WORK EXPERIENCE

Oct 2023 - Present

SPIRALE HR SOLUTIONS Pvt. Ltd Noida, Uttar Pradesh

Full-stack Web Developer | Proficient in MERN Stack Developer

- Front-end Development: Built and maintained dynamic front-end components using React. Utilized Redux and Redux Toolkit for effective state management, enhancing user experience and application performance.
- Implemented RESTful APIs: Developed and integrated RESTful APIs using Node.js, Express.js, and MongoDB, ensuring efficient and secure data handling.
- Implemented user authentication and authorization using JWT and OAuth.
- Optimization: Focused on optimizing both front-end and back-end performance to ensure seamless user interactions and fast load times.

PROJETS

Mar 2024- Apr 2024

Bharat Parcel UI

GitHub : <https://bharat-parcel.onender.com>, <https://dashboard-1vn5.onender.com>

- Project Overview: Designed and developed a parcel platform using React and Material UI.
- Responsive Design: Ensured a seamless user experience across all devices by leveraging Material UI's responsive features.
- Modern UI/UX: Created an intuitive and visually appealing interface using Material UI components.
- Efficiency: Optimized for performance, ensuring fast load times and smooth interactions.
- Technologies Used: React, Material UI.

Job Portal Platform

May 2024 - Present

GitHub <https://onejob.onrender.com>

- Project Overview: Designed and developed a comprehensive job portal platform using the MERN stack.
- Full-Stack Development: Leveraged the MERN stack (MongoDB, Express.js, React, Node.js) to create a robust and scalable job portal.
- API Implementation: Developed and integrated RESTful APIs, including authentication APIs using JWT, to ensure secure and efficient user authentication and data handling.
- Responsive Design: Ensured the platform is fully responsive, providing a seamless experience across various devices.
- Performance Optimization: Focused on optimizing both front-end and back-end performance to enhance user experience and platform efficiency.

TECHNICAL SKILLS

- **Fron-end** : HTML, CSS, Javascript, React, Redux Toolkit, Bootstrap, Tailwind CSS, Material UI
 - **Backend** : Node.js, Express.js, PHP
 - **Database** : MongoDB, Mongoose, MySQL
 - **Tools & Platforms** : Git, GitHub,
 - **Other** : RESTful APIs
-

EDUCATION

Bachelor of Computer Application (BCA)	July 2018 - May 2021
JNM Collage for Advance Studies and Technology (MGKVP) Varanasi	
July 2018 - May 2021	
12th Intermediate	
Intermediate college Birapatti Harhua Varanasi	July 2013 - May 2015
July 2015 - May 2017	
10th High-school	July 2013 - May 2015
Intermediate college Birapatti Harhua Varanasi	
July 2013 - May 2015	

INTERESTS

- Coding
 - Music
 - Gamming
 - Learning new skills
-

CERTIFICTIONS

PHP Web Develoment	Oct 2023 - Apr 2024
Paathshala Classes Sunderpur BHU Varanasi
